Sleeve Length	_____	Arm bent slightly, measure from armhole to wrist Long Sleeve _____ 3/4 Sleeve _____ Elbow Sleeve _____
Upper Arm Width	_____	Around fullest part middle upper arm with arm hanging down
Wrist Width	_____	Around wrist where it bends, narrowest part

* Garment armhole opening must allow ease of movement, less for sleeveless, more for sleeves and outwear.

** Garment shoulder is distance between desired neck opening and desired shoulder edge.

*** If garment has sloped shoulders, back height will be higher than shoulder-to-hem

GARMENT EASE. Measurements above are your body, and garment will be knit smaller or larger depending on the fit and style. A close fitting sweater will have 0-2" of negative ease around bust and hips. Outerwear is usually 1-3" positive ease over bust, even more over hips.
